Computer Systems Engineer with hands-on experience developing and maintaining web applications using React, TypeScript, JavaScript, Node.js, and SQL databases. Proven ability to build responsive user interfaces, integrate REST APIs, and optimize application performance. Motivated to contribute as a Software Engineer in collaborative, agile environments.

EXPERIENCE

Frontend Developer at Caja popular San José de Tlajomulco   **Jun 2025 - Dec 2025**

- Developed and maintained a responsive internal web platform using React, TypeScript, and Tailwind CSS, improving usability across mobile and desktop devices.
- Implemented adaptive layouts and reusable components, reducing UI-related bugs and improving development efficiency.
- Integrated REST APIs in collaboration with backend developers, enhancing system reliability and performance.

T-SHIRT Store   **Jun 2025- Jul 2025**

- Built a full-stack e-commerce application using React, TypeScript, Express, and Node.js, supporting user authentication and order management.
- Implemented CRUD operations with Sequelize ORM to manage products and users efficiently.
- Debugged and optimized application security and performance issues, improving system stability.

Box Maker App Development   **Aug 2023- Sept 2023**

- Creation of an app for android which helped calculate dimensions for creating packages for international shipping
- Delivered a functional prototype that reduced manual calculation time by 40%.
- Integrated an intuitive user interface and automated computation features to streamline logistics.

EDUCATION

Instituto Tecnológico De Ciudad Guzmán   **Aug 2021 - Mar 2026**

Bachelor's Degree in Computer Systems Engineering
GPA: 3.9

CERTIFICATIONS

- SCRUM Fundamental Certificated (SFC)   **Apr 19, 2024**

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, TypeScript, SQL, Python
Frontend: React, TailwindCSS, HTML5, CSS3
Backend: Node.js, Express, Spring-boot
Databases: MySQL, PostgreSQL, SQL Server
Tools: Git, GitHub, VS Code, REST APIs
